

PRODUCT DATASHEET

AI-POWERED SECURITY AWARENESS PLATFORM

Turn human risk into measurable cyber resilience — engaging, AI-driven, and provable with a single Human Risk Score.

WHAT IT IS

THE CONTROL LAYER FOR THE HUMAN ATTACK SURFACE

Cybears X Awareness automates personalized training and phishing simulations, then distills every action into one Human Risk Score — built to deploy fast, engage employees, and prove impact to the board.

91%

of attacks begin with phishing.

74%

of breaches involve a human element.

\$4.9M

average human-targeted breach cost.

CORE CAPABILITIES

Phishing Simulation

Realistic, customizable campaigns with one-click templates and automatic difficulty scaling.

Adaptive Microlearning

Bite-sized lessons that adapt to each employee's role, behavior, and risk profile.

AI Personalization

Tailors content and timing per learner and auto-enrolls high-risk users into remediation.

Automated Campaigns

Recurring programs run end-to-end — enrollment, reminders, and escalation included.

Real-Time Analytics

Live dashboards track participation, click rates, and risk trends down to the individual.

Compliance Reporting

Audit-ready evidence mapped to the frameworks your auditors check — exported in a click.

A-

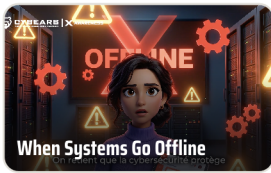

SCORE 87

The Human Risk Score

One trackable number across users, teams, and the organization — benchmark instantly, surface repeat clickers early, and prove ROI quarter over quarter.

TRAINING PEOPLE ACTUALLY WANT TO WATCH

Studio-grade 3D animated episodes – not slideshows. Each dramatizes a real cyber moment your teams remember.
Sample episodes:

Multi-language, fully subtitled, mobile-ready · new episodes added every quarter.

TUNED TO EVERY ROLE

Top Management

Governance, financial & legal exposure.

Middle Management

Owning team risk, leading by example.

Privileged Users

Technical, privilege-abuse scenarios.

Staff

Phishing, passwords, daily habits.

15 CONTENT CATEGORIES

Access & Privilege Management

Applications & Digital Usage

Cloud & Remote Work

Human Behavior & Digital Identity

Regulatory Compliance & Legal

Data & Information Protection

Incident Detection & Response

Physical Environments

Privacy, Ethics & Responsibility

A CONSOLE BUILT FOR SECURITY TEAMS

Run your entire awareness program from one place — campaigns, content, and the live Human Risk Score.

ON THE WEB TODAY — APPS COMING SOON

TRAIN + TEST, ONE CONTINUOUS LOOP

X Awareness pairs natively with **Cybears X Phish** — one shared Human Risk Score, no manual handoffs.

01

Train

Role-based episodes & lessons.

02

Test

X Phish runs a matching simulation.

03

Remediate

Failed clicks auto-enroll in training.

04

Re-score

Updates the Human Risk Score.

WIRED INTO YOUR SECURITY STACK

SIEM & Incident Management

Correlate the Human Risk Score against incident volume — prove that more awareness means fewer incidents. Splunk, Microsoft Sentinel, Elastic, QRadar.

Network Access Control

Require a minimum risk score before granting network access. Cisco ISE, Aruba ClearPass, FortiNAC.

DEPLOYMENT MODES

SaaS Cloud

Fully managed, live in minutes, 99.9% uptime SLA.

On-Premise

Your datacenter, air-gap ready, data never leaves.

Sovereign Hosted

Hosted in your country, full data residency, single-tenant.

PROVEN OUTCOMES

85%

drop in click rate / 90 days

96%

training completion

12h

admin hours saved / month

+3.4

risk-score rise / quarter

COMPLIANCE ALIGNED

ISO 27001

SOC 2 Type II

GDPR

NIST CSF

HIPAA

PCI DSS

CONNECTED TO YOUR STACK

X Awareness plugs into the tools you already run — provisioning, alerting, and access all stay in sync, automatically.

Identity & SSO

Okta, Microsoft Entra ID, Google Workspace, SAML & SCIM provisioning.

HR Systems

Workday, BambooHR & more — auto-sync joiners, movers, and leavers.

Collaboration

Slack & Microsoft Teams — nudges, reminders, and one-click reporting.

SIEM & Incident Tools

Splunk, Microsoft Sentinel, Elastic, QRadar — correlate risk vs. incidents.

Network Access Control

Cisco ISE, Aruba ClearPass, FortiNAC — gate access on risk score.

LMS & Standards

SCORM & xAPI export, REST API & webhooks for everything else.

THE CYBEARS ECOSYSTEM

X Awareness is one part of a complete cyber-resiliency family. Explore what else Cybears can do for you.

Cybears X Phish

PHISHING SIMULATION

Advanced, realistic phishing simulations that pressure-test your people — sharing the same Human Risk Score.
